CORPORATE OVERVIEW

Accelerating enterprise growth with AI and security excellence.

Crest Data is a data and AI-driven technology solutions provider for Enterprises and Technology Innovators in Cybersecurity and Observability. By relying on our deep domain expertise, our customers can focus on their core mission and stay ahead of competition.

200+ Global Customers

60% Cost Savings

1,000+ Talented Professionals

13+ Years of Experience

What We Deliver

SECURITY · OBSERVABILITY · AUTOMATION

Security 01

- Implement SIEM, SOAR, and endpoint security
- IAM, DLP, SASE security
- Endpoint detection and response
- Security integrations and security migrations
- 24×7 Managed SOC

Observability 02

- Infrastructure and network performance monitoring
- Application Performance Monitoring (APM)
- Real User Monitoring (RUM) and synthetic monitoring
- Container & Kubernetes observability
- Incident detection, alerting, and AIOps

Workflow Automation 03

- Platform implementation & customization
- Workflow modernization & migration
- AI-driven automation & intelligent agents
- Dashboards, insights & alerts
- Managed services, L1/L2 support & incident handling

Platforms

PARTNER ECOSYSTEM

Built on the platforms you trust. Delivered with the expertise you need.

From security and observability to cloud operations, Crest Data helps organizations maximize the value of leading enterprise platforms through implementation, migration, integration, and managed services.

Google SecOps · DATADOG · aws · dynatrace · servicenow · Grafana · IBM QRadar · elastic

Why Crest Data

Design, build & operationalize
Exceptional products, solutions, and marketplace ecosystems for global enterprises and the most innovative start-ups.

AI-first approach
Deep engineering DNA combined with AI to build intelligent, scalable, and secure solutions.

Strategic technology partnerships
Strong alliances with AWS, Google, Microsoft, Cisco, ServiceNow, Datadog, Dynatrace, and other Tier-1 leaders.

Accelerated migrations & integrations
AI-driven automation enabling up to 60% reduction in migration time.

Marketplace integrations at scale
Broad industry experience with integrations running successfully on global digital platforms.

Outcome-based delivery
Business-aligned engagement models that keep customers ahead of their competition.
